Notes:

- Adjustments to the cohort reflect the following federally-defined exclusions: death or total and permanent disability; service in the armed forces (including those called to active duty); service with a foreign aid service of the federal government, such as the Peace Corps; or service on official church missions. Adjustments may be reflected at different persistence points depending on the effective dates. Prior to Fall 2008, LVC's retention rates were not calculated based on the adjusted cohort; graduation rates were, however.
- Retention figures only include students returning full-time.
